CORRECTIVE

BIOREPEEL

\$1250 (SERIES OF 4)

BioRePeel is an innovative treatment, providing a bio-stimulating, revitalizing, and peeling like effect, to help counteract the harmful effects of sun damage and general aging. It contains 14 active ingredients including TCA, essential amino acids, vitamins and moisturizing elements, which combine to provide an improved complexion and relaxed skin feeling. The powerful stimulation of biosynthetic components reduces UV damage, pigmentation and acne by restoring the structure of the skin. Unlike traditional chemical peels BioRePeel Cl3 provides a mild but effective exfoliation and is suitable for treating fine lines, wrinkles, blackheads, acute acne and scarring.

CRYOGENIC THERAPY (CO2)

\$45

Cryogenic Therapy (CO2) is known for its exfoliating, germicidal, and anti-inflammatory benefits. These treatments boost microcirculation and collagen production, resulting in tightened, more vibrant skin. It can also help to reduce swelling.

DERMAPLANING

\$75

Dermaplaning removes the outer most layers of dead skin and peach fuzz to reveal a smoother, more radiant complexion. The dermaplaning process allows for better product absorption, which enhances their efficacy. This service is ideal for regular maintenance or to improve the appearance of acne scars and fine lines.

DERMASWEEP™

\$175

DermaSweep™ is an innovative, particle-free skin revitalization system that uses bristles and a vacuum to deeply exfoliate the skin and increase circulation. Once the dead skin has been removed, the skin is treated with a targeted solution like Vitamin C or Salicylic Acid. Each of these treatments is customized based on your skin type, concerns, and desired level of exfoliation. DermaSweep™ is highly effective at treating early signs of aging, fine lines, hyperpigmentation, acne, acne scarring, and surgical scars.

LIGHT COMPLEXION PEEL

\$155+

Light Complexion Peels address environmentally-damaged skin with hydrogen peroxide and glycolic, lactic, and salicylic acids. This unique treatment is customized to meet the needs of your specific skin type and level of concern.

MICROPEEL®

\$155

MicroPeel® is a safe and effective procedure that can be customized to meet the needs of any skin type. This effective three-step process removes the dead cellular layers beginning with Dermaplaning or an Enzymatic exfoliation. Next, an AHA solution is applied to the skin to help free pores of impacted debris. Finally, Cryogenic Therapy is performed to help relieve inflammation and refresh the skin.

OXYGEN RESURFACING PEEL

\$155+

Oxygen Resurfacing Peels are ideal for skin types requiring extra attention. Whether it's acne, fine lines, or issues with dryness, this peel will promote a smoother skin texture.

OXYGENATING INFUSION

\$90 (15 MIN ADD ON)

Oxygenating Infusion uses 95% pure medical-grade oxygen with hyperbaric pressure to stimulate healthy cell renewal. It targets a variety of skin concerns, including acne, rosacea, and sun damage, while offering anti-aging benefits. This service is the perfect add-on to boost the efficacy of your other therapies.

PERFECT DERMA PEEL

\$300

Perfect Derma Peels are the only peel that premieres Glutathione as a founding component and is the only true anti-aging ingredient offered exclusively in our formula. Perfect Derma Peels work from the inside to repair and nourish the skin by giving it a radiant glow, refining pores, improving hyperpigmentation, lifting melasma, diminishing fine lines and wrinkles, eliminating acne, and preventing acne marks. Most importantly, the Glutathione element defies the aging process.

CORRECTIVE

PIGMENT BALANCING PEEL

\$185

Pigment Balancing Peels are a customizable chemical peel targeting hyperpigmentation to dramatically improve the uneven appearance of photo damage, mottled skin. This peel combines high performance brightening and anti-inflammatory agents with a powerful exfoliating solution to accelerate cell renewal and diminish localized hyperpigmentation, photodamaged skin, melasma, and acne-related discoloration.

SALTFACIAL®

\$350

The SaltFacial® uses a revolutionary three-step procedure that combines natural sea salt exfoliation, ultrasound technology, and LED light therapy. This trio comes together to rejuvenate, replenish, and brighten the complexion for healthier glowing skin on the face and body. The SaltFacial® is a facial treatment that can address a variety of skin concerns, such as acne, scars, sun damage, fine lines, wrinkles, and uneven skin tone and texture. It is safe for all skin types and skin tones, and it can be performed any time of the year.

SKIN CORRECTIVE PEEL

\$155+

Skin Corrective Peels are a customized treatment utilizing various acids to address skin specific skin conditions ranging from acne, hyperpigmentation, scarring, and wrinkles. This tailored peel targets the most stubborn skin conditions with little to no down time.

SKINETICS® SIGNATURE PEEL

\$395

Skinetics® Signature Peels are a multipurpose resurfacing treatment that combines the powers of our proprietary blend of chemicals to synergistically improve the appearance of the skin. Combined with Dermaplaning and DermaSweep™ for enhanced exfoliation, while incorporating cupping to assist with blood flow to reshape and firm the skin. Upon completion the skin is dressed in a skin-specific sheet mask while under medical-grade LED therapy that stimulates healthy cell renewal. This treatment targets every skin condition from acne, rosacea, and sun damage with the ultimate in anti-aging benefits.

CONSULTATIONS

CONSULTATION

\$50

Consultations provide an in-depth skin analysis using the Visia® Imaging System. At which point an in-office treatment plan and a specialized home care regimen are discussed to better understand each individual's skin care needs.

VIRTUAL CONSULTATION

\$50

Virtual Consultations provide an in-depth skin analysis from the comforts of your own home. This 30-minute meeting will allow us to document your goals and concerns to be used by our qualified aestheticians as they design a skin care program that is tailored to your needs.

FACIAL TREATMENTS

BACK FACIAL

\$145

Back Facials are a deep-cleansing treatment that includes a personal skin analysis, skin exfoliation with an acid application, extractions, and back massage—while masking to minimize impurities and finishing with a moisturizing protectant.

CUSTOMIZED ACNE FACIAL

\$145

Customized Acne Facials are tailored to the unique needs of our patient. This relaxing, effective facial includes a personal skin analysis, deep cleansing, skin exfoliation with steam, extractions, facial, and décolleté massage, while masking to minimize impurities and finishing with a moisturizing protectant.

CUSTOMIZED FACIAL

\$145

Customized Facials are tailored to the unique needs of our patient. This relaxing, effective facial includes a personal skin analysis, deep cleansing, skin exfoliation with steam, extractions, facial, and décolleté massage, while masking to minimize impurities and finishing with a moisturizing protectant.

ADD-ONS

BROW LAMINATION

\$70

Brow Lamination involves the “perming” of your eyebrow hairs to provide a fuller, more even look. It can also help keep hair in place for a more groomed look without the extra effort or product.

BROW LAMINATION / BROW TINT

\$90

Brow Lamination involves the “perming” of your eyebrow hairs to provide a fuller, more even look. It can also help keep hair in place for a more groomed look without the extra effort or product. For bolder brows, you can add a Brow Tint in a custom-blended shade.

BROW / LASH TINT

\$55

Brow / Lash Tint involves defining eyebrows and eyelashes by adding a custom-blended color for a more unified look. Great for those whose hair and brow colors may differ slightly or may lack fullness.

BROW TINT

\$25

Brow Tint refers to using color in a custom-blended shade to define the eyebrows and create a more polished look. This service is ideal for individuals whose hair and brow colors differ or whose brows lack fullness.

BROW TWEEZE

\$15

Brow Tweeze is for patients who want a proper clean-up of unwanted hairs around the eyebrows. This service is great for creating a sculpted and defined look.

ADD-ONS

BROW WAX

\$20

Brow Wax is a great way to quickly and efficiently remove unwanted hair, for eyebrows that enhance the overall shape and look of your face.

CHIN / LOWER LIP / UPPER LIP WAX

\$20/AREA

Chin / Lower Lip / Upper Lip Wax removes unsightly hairs in minutes, leaving the areas hair-free for up to four weeks. In a little over a minute, the wax hardens to adhere to unwanted hair, and those embarrassing hairs are temporarily removed.

LASH LIFT

\$80

Lash Lift simply alters the shape of your natural lashes. The treatment involves boosting and lifting each individual lash for thicker and longer looking lashes.

LASH LIFT / BROW + LASH TINT

\$125

Lash Lift simply alters the shape of your natural lashes. The treatment involves boosting and lifting each individual lash before tinting them for thicker, darker, longer looking lashes. Brow / Lash Tint involves defining eyebrows and eyelashes through the use of color by adding a custom-blended color to areas for a more unified look. This service is ideal for those whose hair and brow colors may differ slightly or may lack fullness.

LASH LIFT / BROW + LASH TINT / BROW LAMINATION

\$185

Lash Lift simply alters the shape of your natural lashes. The treatment involves boosting and lifting each individual lash, before tinting them for thicker, darker, longer looking lashes. Brow / Lash Tint involves defining eyebrows and eyelashes through the use of color by adding a custom-blended color to areas for a more unified look. Great for those individuals whose hair and brow colors may differ slightly or may lack fullness. Brow Lamination involves the “perming” of your eyebrow hairs to provide a fuller, more even look. It can also help keep hair in place for a more groomed, tailored looking brow.

LASH LIFT / LASH TINT

\$ 115

Lash Lift simply alters the shape and color of your natural lashes. The treatment involves boosting and lifting each individual lash, before tinting them for thicker, darker, longer looking lashes. Lash Tint involves defining eyelashes through the use of color by adding a custom-blended color to areas for a more unified look. This service is ideal for those individuals whose hair and brow colors may differ slightly or may lack fullness.

LASH TINT

\$35

Lash Tint can be a quick and effective solution for patients with fair or fewer eyelashes. Custom-blended pigments are applied to the eyelashes to make them more noticeable.

NOSE WAX

\$20

Nose Wax removes unsightly nose hair in minutes, leaving the nostrils hair-free for up to four weeks. In a little over a minute, the wax hardens to adhere to unwanted hair, and those embarrassing hairs are temporarily removed.

COSMETIC - INJECTABLES

BOTOX® COSMETIC

\$13/UNIT

Botox® Cosmetic is an injected prescription medicine that is used to reduce facial lines and wrinkles and to give clients a more refreshed appearance. Botox® Cosmetic is a quick and minimally-invasive procedure consisting of only a few injections. You can expect to see results approximately three to ten days after your treatment, with visible results shown to last up to four months.

JUVÉDERM VOLUMA™ XC

\$850

Juvéderm Voluma™ XC is the first and only FDA-approved filler to add instant volume to the cheek area. It gives a subtle lift, helping to contour and restore a more youthful profile that lasts up to two years.

KYBELLA®

CONSULTATION REQUIRED

Kybella® is the only FDA-approved injectable treatment that destroys fat cells under the chin to create a more youthful profile. When injected into the area beneath the chin, the result is a noticeable reduction in fullness.

LETYBO® COSMETIC

\$11/UNIT

With the FDA's recent approval, Letybo® has officially joined the family of neuromodulators. Letybo® is a new botulinum toxin type A injectable used to reduce the appearance of wrinkles, particularly those in the forehead and moderate to severe glabellar lines (the "11s" between the eyebrows). Letybo® is known for its potential for precision, natural-looking results, and longer-lasting effects compared to some other neuromodulators. Letybo® offers a safe, effective, and innovative approach to facial rejuvenation. Known for its ability to relax targeted facial muscles, Letybo® effectively softens lines, including crow's feet, frown lines, and other dynamic wrinkles.

RADIESSE®

\$800

Radiesse® is a dermal filler, specifically a calcium hydroxylapatite (CaHA) based injectable, used to correct facial wrinkles and folds, and restore volume in areas like the back of the hands. It provides immediate results by filling in wrinkles and also stimulates the body's natural collagen production for longer-term skin rejuvenation.

REVANESSE® LIPS+™

\$600

Revanesse Lips+™ is indicated for submucosal implantation for lip augmentation in patients 22 years of age or older. Revanese Lips+™ is a remarkably homogenous filler due to our advanced wet milling technology and proprietary formula.

REVANESSE® VERSA™

\$600

Revanesse® Versa™ is composed of Hyaluronic Acid (HA), the primary active ingredient in most dermal fillers, and is a naturally-occurring substance that can be used cosmetically to correct moderate-to-severe wrinkles and folds in the skin.

SCULPTRA®

\$850

Sculptra® Is the first and original injectable collagen stimulator containing microparticles of poly-L-lactic acid (PLLA-SCA). Sculptra helps restore facial skin structure, which may provide long-lasting skin improvement. Sculptra® helps restore your skin's foundation by stimulating your natural collagen production to firm and smooth the entire cheek region and tighten the skin along the jawline.

SILHOUETTE INSTALIFT

CONSULTATION REQUIRED

Silhouette InstaLift is an FDA-approved, minimally-invasive, non-surgical, lifting, tightening, and contouring procedure for the skin. It takes only 45 minutes to perform and reveals instant, long-lasting results that only improve over time. Silhouette InstaLift consist of sutures and bidirectional cones made of filler that repositions and elevates the skin. Over time, the sutures will naturally be absorbed by your body while stimulating the production of collagen. The re-contouring effect is immediate and there is minimal recovery time required.

SKINVIVE by JUVÉDERM®

\$700

SKINVIVE by JUVÉDERM® is an injectable treatment, specifically a hyaluronic acid (HA) microdroplet injectable, that improves skin smoothness and hydration in the cheeks. It's designed to enhance skin quality by increasing hydration and reducing the appearance of fine lines and wrinkles, rather than adding volume like traditional dermal fillers.

*All prices are subject to change without notice.

COSMETIC - LASER

FRACTIONAL CO2

CONSULTATION REQUIRED

Fractional CO2 Laser is one of the most effective ways to treat stubborn skin concerns like deep wrinkles, acne scars, and sun damage. This treatment also aids in tightening the skin and creating an overall rejuvenated appearance. While this tool is an ideal solution for many, it is not suitable for all skin types.

FRACTIONAL ERBIUM

CONSULTATION REQUIRED

Fractional Erbium Laser Resurfacing is a non-ablative solution for diminishing the appearance of mild to moderate wrinkles, correcting pores, and reducing uneven skin texture. In addition, this treatment increases skin thickness and improves the overall tone and feel. Little to no down time is required and the results are highly impressive.

SKIN REJUVENATION (IPL)

CONSULTATION REQUIRED

Skin Rejuvenation (Intense Pulsed Light) is a non-invasive treatment that reverses the signs of photo aging like brown spots, freckles, broken capillaries, and rosacea. This innovative technology actively firms the skin, revealing a brighter, smoother, more youthful complexion.

THERMISMOOTH™

CONSULTATION REQUIRED

ThermiSmooth™ is a non-invasive skin smoothing treatment that delivers precise, gentle epidermal heating to tone the skin. ThermiSmooth™ is performed using a specially-designed thermistor regulated hand piece, which is supplied with the ThermiRF™ system. Treatments are repeated several times to achieve the desired cosmetic result.

THERMISMOOTH BODY™

CONSULTATION REQUIRED

Thermismooth Body™ is a non-invasive procedure that uses targeted radio frequency energy and is delivered by a hand piece on top of the skin. When the skin's collagen reaches around the desired temperature it reacts by shrinking. This shrinking effect is what causes the skin to naturally tighten, smoothing skin and reducing the appearance of wrinkles, cellulite, skin laxity, and fat. At the same time, your skin's natural inflammatory response to the heat is to produce new collagen, furthering the benefits of the procedure.

THERMITIGHT™ (INJECTABLE RF)

CONSULTATION REQUIRED

Thermitight™ is a peer-reviewed protocol described as "thermistor-controlled subdermal skin tightening". The ThermiRF™ system is used along with a tiny SmartTip™ thermistor probe, which is inserted under the skin to heat subdermal tissues to a specific temperature. During this procedure, internal temperatures are monitored and regulated by the system computer for safety. Most injectable RF treatments are one-time procedures that can be completed in less than an hour.

VENUS VIVA™ MD

CONSULTATION REQUIRED

Venus Viva™ MD is a highly customizable professional skin resurfacing machine. An alternative to microneedling and fractional laser treatments, it delivers exceptional results with low downtime and is safe for all skin types. Using NanoFractional Radio Frequency (RF) with SmartScan™ technology, Venus Viva™ MD is a fractional skin resurfacing system that allows operator control of ablation and coagulation for enhanced efficacy in resolving mild to severe skin damage.
